The PHOENIX group is a leading pharmaceutical trader in Europe, reliably supplying people with drugs and medical products every day. The PHOENIX group originated from the merger of five regionally active pharmaceutical wholesale businesses in Germany in 1994. Today, the company offers unique geographical coverage throughout Europe, making a vital contribution to comprehensive healthcare with around 29,000 employees. The PHOENIX group's vision is to be the best integrated healthcare provider – wherever it is active. This means that each customer group is provided with the best possible services and products along the entire pharmaceutical supply chain.

In pharmaceutical wholesale, the PHOENIX group is active with 153 distribution centres in 25 European countries and supplies pharmacies and medical institutions with drugs and other health products. Numerous other products and services for pharmacy customers complete the portfolio – from support with patient advice to modern goods management systems to cooperation programmes.

In pharmacy retail, the PHOENIX group operates more than 1,600 of its own pharmacies in 12 countries – of which around 800 operate under the corporate brand BENU. In addition to Norway, the United Kingdom, the Netherlands, and Switzerland, the company is also represented in the Eastern European and Baltic markets. More than 12,000 pharmacy employees have 113 million customer contacts each year. They dispense around 250 million drug packages to patients and advise them on issues concerning pharmaceuticals and general health.

Pharma Services provides services across the whole supply chain. The "All-in-One" concept stands for a comprehensive range of services that benefits drug manufacturers, pharmacies, and patients. We take on the entire distribution process for the pharmaceutical industry as desired, which includes storage, transportation, and goods management.

We deliver health.
Each and every day. Across Europe.
Together we are

- achieving success
- reaching goals
- leveraging potential
- turning ideas into reality

PHOENIX group: link between manufacturer and patient

As a wholesaler, the PHOENIX group ensures that the drugs and health products of pharmaceutical manufacturers are delivered to pharmacies and medical institutions both quickly and reliably. The PHOENIX group also supports independent pharmacies in Europe, offering various services to increase customer retention.

PHOENIX Pharma Services offers a wide range of services along the entire pharmaceutical supply chain that enable pharmaceutical manufacturers to focus their attention on the development and production of superior drugs. The PHOENIX group takes care of everything else.

In pharmacy retail, the PHOENIX group is responsible for directly supplying the general public with pharmaceuticals and health products. The comprehensive and professional advice provided by our pharmacy staff is of the highest quality and is accompanied by the best possible customer service.
The first half-year at a glance

→ Position as a leading pharmaceutical trader in Europe underlined
→ Total operating performance and revenue increased again
→ Profit before tax significantly improved compared to first half-year of 2014/15
→ Positive outlook for the fiscal year 2015/16 confirmed
Interim group management report

Business and economic environment

Development of the market
The economic environment in Europe was characterised by a slight growth of the GDP in the second quarter of 2015. In the eurozone, the seasonally adjusted GDP increased by 1.2 % in the second quarter of 2015 compared to prior year’s second quarter. In Germany, GDP increased by 1.6 % compared to the second quarter of 2014.

Overall, the European pharmaceutical markets continued their moderate growth in the second quarter of 2015. In particular the German pharmaceutical market showed a comparatively strong growth. The total turnover of the German wholesale pharmaceutical market grew by 4.0 % from January to July 2015 compared to the same period of the prior year. The increase was mainly due to higher prescription and OTC pharmaceuticals revenues.

In total, the PHOENIX group continued its positive development in the European market environment. The increase in total operating performance was 6.7 %, revenue grew by 5.2 %.

Acquisitions
In the first half-year of 2015/16 business combinations led to a cash outflow of EUR 10.6m (comparative period: EUR 12.5m).

The appropriate competition authorities have unconditionally approved the acquisition of the Slovakian company SUNPHARMA by the PHOENIX group.

Results of operations
In the first half-year of 2015/16, total operating performance, comprising revenue and handled volume which cannot be recognised as revenue, increased by 6.7 % to EUR 14,257.6m. Adjusted for foreign exchange rate effects, total operating performance grew by 6.0 %.

Revenue grew by EUR 572.0m (5.2 %) to EUR 11,674.5m (comparative period: EUR 11,102.5m). Adjusted for foreign exchange rate effects, revenue grew by 4.1 %. The reason for this is an increase in revenue in Germany where the wholesale pharmaceutical market showed a noticeable growth. Also the majority of our foreign markets recorded increases in revenue.

Gross profit increased by EUR 84.2m to EUR 1,120.0m. The gross profit margin rose from 9.3 % to 9.6 %. This is mainly attributable to an improved cost-of-sales ratio.

Other operating income was nearly on prior year’s level.
Personnel expenses increased by 8.0% (adjusted for foreign exchange rate effects: 6.3%) to EUR 584.6m. This is mainly due to the impact of collective salary increases, acquisitions and the growth in business. The personnel cost ratio was 5.0% and is almost unchanged compared to prior year’s first half-year.

Other expenses rose by EUR 36.1m. This is mainly due to increased transportation costs, communication and IT expenses and lease costs. In relation to revenue, other expenses come to 3.3% and were on prior year’s level (3.2%).

Earnings before interest, taxes, depreciation and amortisation (EBITDA) came to EUR 218.5m and matches almost the amount of the comparative period (EUR 218.3m) as total expenses grew proportionately to the gross profit.

The PHOENIX group’s indicator used for comparison with net debt (adjusted EBITDA) came to EUR 226.1m and is determined as follows:

<table>
<thead>
<tr>
<th>EUR k</th>
<th>1st half-year 2014</th>
<th>1st half-year 2015</th>
</tr>
</thead>
<tbody>
<tr>
<td>EBITDA</td>
<td>218,272</td>
<td>218,456</td>
</tr>
<tr>
<td>Interest from customers</td>
<td>7,524</td>
<td>6,100</td>
</tr>
<tr>
<td>Expenses related to ABS/factoring</td>
<td>1,423</td>
<td>1,507</td>
</tr>
<tr>
<td>Adjusted EBITDA</td>
<td>227,219</td>
<td>226,063</td>
</tr>
</tbody>
</table>

Depreciation and amortisation increased slightly by EUR 2.9m compared to the prior year.

The financial result improved compared to prior period’s result by EUR 23.7m to EUR –25.1m. The improvement is mainly due to the repayment of the high-yield bond issued in 2010 in the financial year 2014/15 and a lower average net debt.

Profit before tax increased by EUR 21.0m to EUR 137.0m compared to the prior year.

The effective tax rate in the first half-year of 2015/16 came to 32.7% and was 33.8% in the comparative period.

Profit for the period rose from EUR 76.8m to EUR 92.2m. Of this, EUR 9.5m is attributable to non-controlling interests (comparative period: EUR 10.4m).
Net assets
The Group’s total assets decreased slightly by 0.5% to EUR 7,683.7m compared to 31 January 2015. The currency translation difference on the total assets, which is presented in the statement of changes in equity, amounts to EUR –5.8m (31 January 2015: EUR –41.4m).

Compared to 31 January 2015, non-current assets increased by EUR 68.3m to EUR 2,608.5m. The increase of intangible assets was EUR 38.8m and is mainly due to foreign exchange rate effects. Intangible assets contain goodwill with an amount of EUR 1,171.6m (31 January 2015: EUR 1,148.4m). The increase of property, plant and equipment of EUR 11.0m is mainly attributable to the current investing activity.

Inventories increased compared to 31 January 2015 by EUR 277.4m to EUR 2,118.5m. This increase is mainly due to seasonal fluctuation.

Trade receivables were reduced by 3.7% to EUR 2,345.1m. As of 31 July 2015, receivables of EUR 127.0m (31 January 2015: EUR 121.6m) were sold under ABS and factoring programmes that are not accounted for in the statement of financial position. Under ABS and factoring programmes that are accounted for only to the extent of the continuing involvement, receivables of EUR 252.4m were sold as of 31 July 2015 (31 January 2015: EUR 255.3m). The Group’s continuing involvement came to EUR 22.1m (31 January 2015: EUR 20.9m).

Other current receivables and other current financial assets increased from EUR 187.1m as of 31 January 2015 to EUR 193.5m and mainly include receivables from factoring and ABS transactions of EUR 81.5m (31 January 2015: EUR 71.7m) as well as receivables from rebates and bonuses of EUR 55.5m (31 January 2015: EUR 48.0m).

Other current assets increased from EUR 103.1m as of 31 January 2015 to EUR 130.2m among others due to higher prepayments.

The change in cash and cash equivalents is presented in the statement of cash flows.
Financial position

Equity increased mainly due to the profit for the period and positive foreign exchange rate effects.

The result before changes in working capital could be improved from EUR 164.8m to EUR 201.9m. The increase in working capital of EUR 473.1m was EUR 105.8m lower than in the comparative period. Cash flow from operating activities increased by EUR 142.9m to EUR – 271.2m. The main reason for the negative cash flow from operating activities is an increase in working capital due to seasonal deviations.

Cash flow from investing activities amounted to EUR – 75.3m and was on prior year’s level.

Non-current financial liabilities came to EUR 603.0m. As at 31 July 2015, non-current financial liabilities contain, among others, bonds of EUR 592.0m (31 January 2015: EUR 591.4m).

Current financial liabilities increased by EUR 45.2m to EUR 805.5m mainly due to higher current bank liabilities.

Current financial liabilities include, among others, liabilities to banks of EUR 235.8m (31 January 2015: EUR 184.0m), liabilities from ABS and factoring agreements with an amount of EUR 303.2m (31 January 2015: EUR 321.6m) as well as other loans amounting to EUR 118.0m (31 January 2015: EUR 109.3m).

Trade payables decreased by EUR 180.1m to EUR 2,950.4m.

Other liabilities declined from EUR 263.7m as of 31 January 2015 to EUR 220.5m. This is mainly attributable to lower liabilities from other taxes.

Overall, the PHOENIX group was able to underline its position in the first half-year of 2015/16 as a leading pharmaceutical trader in Europe.

Subsequent events

The PHOENIX group aims to acquire Mediq Apotheke Nederland B.V. via its subsidiary Brocacef Groep. The acquisition contains pre-wholesale activities in addition to pharmacies and wholesale, and is subject to the approval of the responsible competition authorities.

In Hungary, the PHOENIX group aims to acquire Novodata. Novodata has been successfully operating in the Hungarian healthcare market with its pharmacy software and is now the market leader in this sector. The acquisition is subject to the approval of the responsible competition authorities.
Risks and opportunities

The PHOENIX group has comprehensive planning, approval and reporting structures and an early warning system which we use to identify, assess and monitor our opportunities and risks. The opportunities and risks of significance to us are presented extensively in our annual report for fiscal year 2014/15.

The risks presented there are still essentially relevant.

Forecast

We anticipate a stable economic environment in 2015, with GDP in Germany expected to grow by between 1 % and 2 %. Moderate GDP growth is also expected in the rest of Europe. We do not anticipate any noticeable increase in inflation or interest rates in 2015.

We expect the pharmaceutical markets in Europe to record market growth of around 2 % overall in 2015.

For the fiscal year 2015/16, the PHOENIX group expects to further expand its market position in Europe through organic growth and acquisitions and thereby increase revenue slightly above the level of growth on the European pharmaceutical markets. We anticipate revenue growth primarily in Germany, Western Europe and Eastern Europe, while we expect revenue to remain stable in Northern Europe.

Despite major challenges, we expect adjusted EBITDA in 2015/2016 to reach somewhere around the level of the adjusted EBITDA achieved in 2014/15 but without the one-time effect in connection with the change in the accounting method for pension obligations. The consolidation of Mediq Apotheke Nederland B.V. is not included in these figures. Among other factors, the effects of the German minimum wage, in force since January, have a negative impact.

The equity ratio is expected to increase again slightly mainly as a result of the planned earnings course.

The current results of operations as of August confirm the development anticipated in the planning for 2015/16.

Notes to the interim condensed consolidated financial statements as of 31 July 2015

The company
PHOENIX Pharmahandel GmbH & Co KG, Mannheim, ("PHOENIX" or the "PHOENIX group") is a European pharmaceuticals distribution group. PHOENIX has business activities in 25 European countries. In several countries, PHOENIX also operates its own pharmacy chains. The registered office is located in Mannheim, Germany.

Basis of presentation
The interim condensed consolidated financial statements of PHOENIX group as of 31 July 2015 are prepared on the basis of IAS 34 "Interim Financial Reporting", observing all International Financial Reporting Standards (IFRSs) issued by the International Accounting Standards Board (IASB), London, and mandatory in the EU as of 30 April 2015, as well as all mandatory interpretations of the International Financial Reporting Standards Interpretation Committee (IFRS IC).

The interim condensed consolidated financial statements as of 31 July 2015 of PHOENIX were released for publication by the management of PHOENIX Pharmahandel GmbH & Co KG on 1 September 2015.

Significant accounting policies
The accounting policies used to prepare the interim condensed consolidated financial statements are essentially consistent with those used in the consolidated financial statements as of 31 January 2015. Standards and Interpretations that are applicable since 1 February 2015 for the first time had the following impacts on the interim financial statements:

**IAS 19 Defined benefit plans: Employee contributions**
The amendment to IAS 19 clarifies how employee contributions or third-party contributions to defined benefit plans are accounted for, with the accounting treatment depending on whether the contributions depend on the number of years of service or not. A solution facilitating the accounting practice is also granted if the amount of the contributions is not dependent on the number of years of service. The amendment to IAS 19 did not have any impact on the interim financial statements.

The amendments address details of the recognition, measurement and disclosure of business transactions and serve to standardise terminology. They consist mainly of editorial changes to existing standards. The amendment did not have any impact on the interim financial statements.
Business combinations in the first half-year of 2015/16

The business combinations carried out in the first half-year of 2015/16 are explained below. Purchase accounting is performed in accordance with the acquisition method pursuant to IFRS 3 “Business Combinations”.

In fiscal year 2015/16, the cumulative profit for the period of the acquirees came to EUR –59k and revenue to EUR 25,079k. Assuming that the acquisition date coincides with the beginning of the reporting period for all business combinations, accumulated revenue for the period came to EUR 27,658k. Assuming that the acquisition date coincides with the beginning of the reporting period for all business combinations, the accumulated profit for the period came to EUR 210k.

The table below shows a summary of their fair values:

Other business combinations
In the first half-year of 2015/16, the Group acquired pharmacies and a wholesale depot that are individually immaterial.

The goodwill arising on those acquisitions was allocated to the cash-generating units Netherlands (EUR 3,885k), Latvia (EUR 2,141k), Italy (EUR 1,300k), United Kingdom (EUR 829k), Switzerland (EUR 731k), Czech Republic (EUR 455k) and Serbia (EUR 135k) and is managed in the local functional currencies (EUR, GBP, CHF, CZK and RSD).

EUR 3,885k of the goodwill recognised from business combinations is expected to be tax deductible.

The fair value of current receivables contains trade receivables with a fair value of EUR 415k. The gross amount of the trade receivables past due amounts to EUR 423k, of which EUR 8k is expected to be uncollectible.

Because of preliminary data, some assets and liabilities could not be finally valued at the balance sheet date.

Other operating expenses
Other operating expenses contain expenses in connection with ABS and factoring programmes of EUR 1,507k (comparative period: EUR 1,423k).

</tr>
</tbody>
</table>

In connection with the loan agreements, it was agreed to comply with certain financial covenants, all of which were met in the first half-year of 2015/16.

Liabilities to associates and related parties include current loan liabilities to partners of EUR 55,682k (31 January 2015: EUR 63,860k), resulting mainly from interest on the supplementary partner contribution.

Other financial liabilities (non-current) contain non-current derivative financial instruments of EUR 431k (31 January 2015: EUR 431k).

Other financial liabilities (current) contain current derivative financial instruments of EUR 7,886k (31 January 2015: EUR 11,721k).
**Information on financial instruments**

</tr>
</tbody>
</table>

Available-for-sale financial assets primarily contain shares in unlisted entities. Where no fair value can be determined, they are recorded at acquisition cost. Shares in listed entities are measured at the quoted price determined as of the reporting date. For other available-for-sale financial assets, the fair value is determined using a multiplier method (revenue multiple, level 3). This uses individually derived multipliers between 0.62 and 1.2 (prior year: between 0.62 and 1.2). A 10% increase in the multipliers would increase the value by EUR 4,426k (prior year: EUR 4,426k); a 10% decrease in the multipliers would decrease the value by EUR 4,252k (prior year: EUR 4,252k).

Derivatives are recognised at their fair values (level 2).

Due to the short-term maturities of cash and cash equivalents, trade receivables and other current financial assets, their carrying amounts generally approximate the fair values at the reporting date (level 2).

The fair value of loans to and receivables from associates or related entities, other loans, held-to-maturity financial assets and other non-current financial assets due after more than one year correspond to the net present value of the payments related to the assets based on the current interest rate parameters and yield curves (level 2).
The carrying amounts for each category and class of financial liabilities and the fair values for each class are presented in the following table:

The fair value of bonds is determined by multiplying the face value of the bond by the quoted market price at the reporting date (level 1).

Derivatives are recognised at their fair values (level 2).

Due to the short-term maturities of trade payables and other current financial liabilities, their carrying amounts generally approximate the fair values at the reporting date (level 2).

**Fair value hierarchy of financial instruments**

PHOENIX applies the following fair value hierarchy to define and present its financial instruments measured at fair value:

- **Level 1**: Quoted (unadjusted) prices in active markets for identical assets or liabilities.
Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Techniques that use inputs that are not based on observable market data.

The fair value of available-for-sale assets measured at cost of EUR 13,326k (31 January 2015: EUR 4,059k) has not been disclosed because the fair value cannot be measured reliably.

The following table shows the reconciliation of the fair value based on level 3.

<table>

</table>
Commitments and contingent liabilities

Compared to 31 January 2015, commitments increased by EUR 58,931k to EUR 690,522k. This is mainly due to new lease contracts.

PHOENIX recorded contingent liabilities for guarantees of EUR 98,303k (31 January 2015: EUR 100,060k).

Related party disclosures

A related party granted PHOENIX loans in the first half-year of 2015/16. The loans amounted to EUR 145,000k, were fully repaid during the reporting period and interest expenses of EUR 22k were incurred on them.

Beyond that, the business relationships with related parties presented in the consolidated financial statements as of 31 January 2015 remained essentially unchanged in the first half-year of 2015/16.
